

# THE BRAINERD DAILY DISPATCH

Volume 20, Number 62

BRAINERD, MINNESOTA, FRIDAY, AUGUST 13 1920

Price Three Cents

## RESIGNATION OF FRENCH PRESIDENT IS IMMINENT

AS THE RESULT OF THE FRENCH  
ANTI-BOLSHEVIST POLICY

(United Press)  
Paris, Aug. 13.—Resignation of Pres. Deschanel is imminent as a result of France's new and aggressive anti-bolshevist policy and the consequent diplomatic misunderstanding with Great Britain, it was reported today in high political circles. In such an event, it was likely that Premier Millerand would be elected president and M. Briand appointed premier.

The Press today generally declared recognition of Wrangel's anti-bolshevist government by France was a mere incident with gradual diverging of the Russian policy between France and Great Britain.

Britain and France today were diplomatically negotiating in an effort to smooth out differences in regard to Russia.

## FRENCH CLAIM TO HOLD WILSON'S VIEWS

(By United Press)  
Paris, Aug. 13.—France today sent a note to the United States declaring it holds the same view with regard to Russia as to what was expressed by President Wilson in his note to the Italian embassy.

France Lines up With U. S.

Aug. 13.—France today officially lined itself with the United States in the Russian policy in preference to that of Great Britain. Having recognized the Wrangel anti-bolshevist government without Britain's approval, France sent a note to America announcing that it holds the same view of the Russian situation as was expressed by President Wilson in his recent note to the Italian embassy, namely, that Lenin and Trotsky should not be recognized but the allies should reserve making peace for Russia's people who are not represented by the red government.

## Big Battle Fought 30 Miles from Warsaw

London, Aug. 13.—Polish and bolshevist armies have met in a battle at a point about thirty miles north of Warsaw, according to dispatches filed from the Polish capital.

The Poles were offering a bitter resistance, according to reports from the front.

## Polish Delegates Meet Bolshevik

Paris, Aug. 13.—Polish armistice delegates met the bolshevist commissaries at the front today and agreed to begin negotiations Saturday, according to advices to the foreign office this afternoon.

## LONG LACE-MAKING CENTER

Since 1665 Ypres Has Been Celebrated  
for the Excellence of Its  
Manufactures.

It was in 1665 that the manufacture of lace, now known as Valenciennes, was begun at Ypres, and with other cities and towns and hamlets in Flanders the clack of the bobbins and the chatter of the lacemakers may once more be heard. Many a little village is re-establishing its industry and is finding as ready a market as it did before the war. Flemish laces have always been favorites in England from the time when Henry VIII in 1540 made a present of "kerchiefs fringed with Flemish work" to "his verrie deare wife," Catherine Parr. Lace making was part of the education of women in the Low Countries in the latter part of the fifteenth century, and Charles V ordered it to be taught in the schools, but in 1690 it was not only a flourishing industry in Belgium but, with the approval of Louis XIV, a Manufacture Royal de Dentelles was founded, and lacemakers from Flanders were brought to France, as Flemish lace was even more sought after than Italian lace. It was at this time that some of the most famous "points" first appeared and were developed. The "point de Bruxelles," which is made with the needle, and "Binche" lace, the queen of all pillow lace, as well as "point d'Angleterre," in which pillow and needlework are mingled, all enhanced the reputation of the Flemish designers.

She Was Tired of Percy.  
Percy Noddies says that when he asked the capitalist's daughter what she would think if he got a job at reading meters for the gas company, she said she would be awfully glad if he would go into something that took him to other people's houses some of the time.—Dallas News.

Leader Wed Before  
Leaving for Women's  
Council in Norway

Mrs. Josiah C. Merriman

Romance and woman's club leader, ship mix beautifully. Mrs. Myra K. Miller, as chairman of the group of women delegates who will represent the United States at the International Council of Women in Norway, went to New York from her home in California to head the delegation. A few hours before she sailed she became the bride of Dr. Josiah C. Merriman, who accompanied the delegate as medical adviser.

## 15 YEAR OLD BOYS IN WILD WEST STUNT

## TAKE OVER \$2,000 FROM FATHER'S SAFE AND START WEST FOR REAL LIFE

(United Press)  
Chicago, Aug. 13.—Walter Etterane, and his trusty pal Wm. Reichle were bound for the boundless west to fight Indians, pose for movies and do other wild west stunts.

When they reached the frontier streets of Chicago they decided they had better arm themselves properly so they bought a battery of twenty-two caliber rifles and some knives. Police found them in the railway station looking all the world like Jesse James' gang had come to life.

According to the police Walter said the \$2,215 he carried was removed from the safe in West View hotel, Pittsburgh, owned by his father.

Walter and William are fifteen years old.

## TOWN LIVES WITHIN ITSELF

Seibo, on the Island of Santo Domingo,  
Entirely Without Accommodation  
for Travelers.

The town of Seibo, on the island of Santo Domingo, notorious for its bandit tribes, is one of the few communities on the island that has no hotel accommodations, the unbefriended stranger finding nothing but miserable thatched huts with nests on three legs for beds, and a ragged old negro crone for a servant. Seibo is the most out-of-the-way, astonished-at-strangers, unacquainted-with-the-world town of any size that can be found in the West Indies. Though a large detachment of United States marines camp at its bandit-threatened door, the people show unbounded surprise to see American civilians. Groups of almost feebly dressed men lounge in the streets, yet the town itself is little short of filthy.

A curious old church, a part of it built 400 years ago, on the top of which is the marina wireless station, is the only building of importance. From the top of this church Seibo is seen to be surrounded by low hills, everywhere wooded, without a hut outside its compact mass, described by Harry A. Frank in the Century Magazine, as having "its skirts drawn up like those of a nervous old maid in constant dread of mire." The town also has the proverbial garrison house that seems like a fort of the medieval ages.

"Father of the Automobile"  
This title was given to Gottlieb Daimler, who constructed the first gasoline engine automobile.

## GET RICH QUICK CO. INSOLVENT

OFFERED INVESTORS ONE HUNDRED PER CENT PROFIT  
IN SIX MONTHS

(United Press)  
Boston, Aug. 13.—The second get-rich-quick scheme to blow up here within a few days collapsed today when C. M. Brightwell, president of the Old Colony Foreign Exchange company, offered investors one hundred per cent profit in six months, admitted his concern was insolvent.

The Old Colony company had taken over the business of Chas. Ponzi, arrested on charges of using mails to defraud and larceny.

Brightwell admitted an insolvency when the doors of his concern were besieged by hundreds of investors seeking to regain their money.

## Office Stormed by Investors

Boston, Aug. 13.—An angry crowd of investors stormed the office of the Old Colony Foreign Exchange company here today and sought to attack C. M. Brightwell, president of the company which he has admitted was insolvent.

But the crowd which had gathered since morning demanded return of their money. The money was not forthcoming.

The crowd pushed forward and battered at the door of the building. Brightwell huddling in his office in terror, telephoned for police. In the meantime a crowd of hundreds had battered down the main door and wrecked the palatial suite of the company.

When police arrived the crowd was beyond control. So instead of trying to curb them the police told them to go to the branch office of the concern in Oliver street. The crowd reached the office on Oliver street just as the office force, having been warned by telephone, rushed out of the building.

A freight clerk and two stenographers were stopped and questioned by the mob and then released.

Owners of the main office building where the company has its headquarters ordered Brightwell to vacate at once. He didn't go soon enough and the office furniture was put out on the street.

## RABBIT PELTS IN DEMAND

Country Boys Have Opportunity to  
Make Some Money During the  
Coming Winter Months.

In recent years several kinds of fur, formerly of so little value as to offer no inducement to the trapper, have increased in price, and consequently collecting them has been made profitable.

Rabbit pelts, which are extensively used by hat makers, are among these products. Formerly rabbit skins were of virtually no value; country boys who eagerly sought the lair of the skunk and the raccoon and who were even able to sell squirrel skins, thought so little of the rabbit and made so little effort to dispose of the skins that they were seldom used except to form a pad on which they "knocked down" in the marble game.

Now, however, rabbit skins are worth something, and the country boy who will devote this winter to saving and marketing the skins of the rabbits he kills should make a comfortable sum of money.

One big eastern firm has announced that it will need 10,000,000 rabbit skins. The skins are usually sold by the pound, which will contain seven or eight skins.

Bret Harte Slapped Him.  
The man who knew Bret Harte was discovered in the lobby the other morning.

"I was a devil in the shop where the Overland Monthly was printed," he began, after being identified as James H. Barry, editor of the Star, San Francisco's only Democratic paper. "Bret Harte was employed in the mint. He sent over the manuscript of 'The Luck of Roaring Camp,' and they finally decided to print it despite the objection of a sensitive lady proofreader. Somehow the proofs had to be pulled in a hurry, and the only ink available at the moment was blue. I carried the blue proofs over to Harte. He said: 'What the hell is this blue ink for? I can't read it. Haven't they got any black?'"

"I was too scared to make any explanation and I got the usual reprimand administered to printers' devils in those days. Harte reached over and slapped my face. I always hated him after that."—Sun and New York Herald.

## SUSPECTED MURDERER FOUND KILLED

(By United Press)

Chicago, Aug. 13.—The body of the man said to have been shot to death on the highway four miles south of Chicago Heights yesterday was identified today as that of Frank Gibbie, sought by police. He had been shot three times and the body tossed out of an automobile.

Gibbie was suspected of the murder of Santo Orlando. When the police were on the way to identify the dead man yesterday, his sister received a telephone call.

"You will find your brother dead at Chicago Heights. Orlando has been revenged."

## GREEK PREMIER SHOT AND INJURED

IN FRANCE, AS HE WAS LEAVING  
LYONS FOR NICE

Pars, Aug. 12.—Premier Venizelos of Greece was shot and slightly wounded as he was leaving the Lyons railroad station tonight for Nice, by two men who stepped from a crowd and opened fire with revolvers.

Premier Venizelos was taking leave of friends when two swarthy individuals rushed from the crowd, one firing three shots and the other five before they were overpowered. The premier was reported wounded in the right side and the left arm.

His assailants, following their arrest, were rescued from the crowd by the police, with great difficulty, the mob shouting "lynch them." Both of the men were severely mangled.

## Bullet Is Removed

Paris, Aug. 13.—The would be assassin's bullet which split the shoulder blade of Premier Venizelos of Greece into four pieces was removed today in an operation which was declared successful.

After the operation it was announced the premier's condition was very satisfactory, but that absolute rest was necessary.

He had a good night. The bullet was removed by means of radiograph.

## DENVER STREET CAR IS DYNAMITED

(United Press)

Denver, Aug. 13.—A charge of dynamite on a car track early today badly damaged a street car which struck the explosive. The car, operated by a strike breaking crew, was the first one out of the barn, and there were no passengers aboard. The members of the crew were uninjured. Police and soldiers rushed to the scene.

## Australians Letter Writers

Australians are by far the most prolific letter writers in the world. They average 150 letters per head each year, as against an average of 80 for the people of the United States and Canada.

## Indian Governor of Passamaquoddy Tribe In Maine Greeting Franklin D. Roosevelt

Headed by their governor, William Neptune, Indians of Maine's most easterly tribe, the Passamaquoddy, located five miles east of Eastport, recently went to call on Franklin D. Roosevelt, democratic nominee for vice-president. They met him at his Canadian summer home at Camp-

## ROOSEVELT TALKS AT MILWAUKEE

CLASSED OPPONENTS OF LEAGUE  
AS REACTIONARIES, OLD  
GUARD, ETC

(United Press)

Milwaukee, Wis., Aug. 13.—"Not perfect but a try in the right direction," was the phrase Franklin D. Roosevelt, democratic candidate for vice-president used in referring to the league of nations covenant in his address before an audience of close to two thousand persons here last night.

"I am not afraid of the issue of peace and the league of nations covenant."

Roosevelt classed the league opponents as "reactionaries," "the old guard," and asserted that "my quarrel is with the men who oppose the league dishonestly for partisan purposes."

"My heart goes out to Poland," he said, adding that "if we should have gone into the league when it was formed Poland would not have had its back to the wall today."

In the course of his remarks Roosevelt said that "talk of peace by resolution was campaign bunk."

Minneapolis, Aug. 13.—Speaking before a large audience at noon here today Franklin D. Roosevelt, declared for obliteration from politics of the food problem and for the making of farm life more attractive.

"My trip to the northwest is for the purpose of learning through personal contact the needs of this part of the country," Roosevelt declared.

"Problems that once were local and could be handled locally, today have become national."

"We recognize the condition of farm life must be made even more attractive than now in order to increase production. It means betterment of transportation facilities, marketing conditions and reduction of the number of hands through which the article must go before it reaches the consumer."

"The food problem of the country must be taken out of politics and must be handled as a nation wide problem."

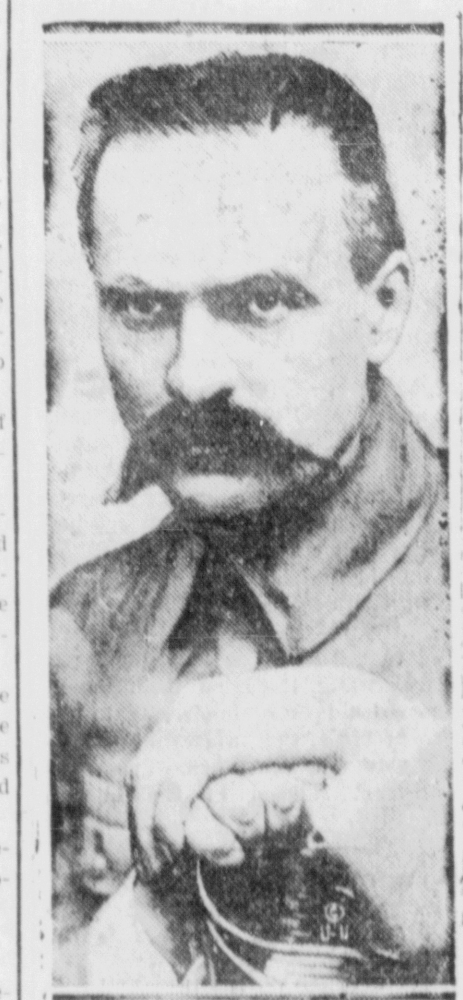

Roosevelt was met in St. Paul by a delegation headed by Mayor Hodgson, which accompanied him to Minneapolis.

There the party was augmented by a Minneapolis delegation at a banquet and reception. Roosevelt was to be delivered over to St. Paul democrats late this afternoon to be escorted to St. Paul where he is scheduled to address an audience tonight.

## Years of a Watch's Usefulness.

The roller jewel of a watch makes every day 432,000 impacts against the fork, or 157,680,000 blows during the course of a year, which figures out 3,153,600,000 blows during the space of twenty years, the period for which a watch is usually guaranteed to keep good time.

President of Poland Who  
Prefers Death in Battle to  
Country's Downfall

General Joseph Pilsudski

General Joseph Pilsudski, president of the Polish Republic, is also field marshal of the armies which are being driven back on Warsaw by the forces of Soviet Russia. His task has been made more difficult by reported friction between the French General Maxime Weygand's staff and the Polish military leaders. President Pilsudski is reported to have said that he preferred death on the battlefield to seeing Poland's downfall.

## LABORITES MEET TO ORGANIZE

PREPARATORY TO TELLING GOVERNMENT WHAT TO DO IN  
THE RUSSIAN-POLISH  
SITUATION

(By United Press)

London, Aug. 13.—A conference of laborites from all over the united kingdom was held here to organize preparatory to telling the government what to do in the Russian-Polish situation. It was the first time in Britain's history that workers of the nation had gathered for the purpose of virtually dictating a foreign policy to the government.

## WEALTHY WASHINGTONIAN AND YOUNG GIRL SUICIDE

(United Press)

Washington, Aug. 13.—Searching parties beating the Maryland woods near here for trace of pretty sixteen year old Mary Sheeringer, found her body beside that of J. Ford Thompson, forty-nine, wealthy Washingtonian.

Both Thompson and the girl had been shot in the head. Police believe they committed suicide.

## COMFORT IN AIRPLANE CABIN

Great Contrast in Flights in Inclosed  
and Open Machines; as Described  
by Passenger.

I recently had the opportunity of making two airplane flights in the same day, the first in one of the completely inclosed transport machines, the second in a fighting machine which was developed in America during the last few months of the war and which has a speed of about 135 miles an hour. The force exerted by the air against any exposed surface is about three times as great at this speed as it is at 50 miles an hour.

During the first of these two trips the only complaint that could have been raised against conditions in the pilot's compartment would have been that it was rather close and we finally had to open a window in the side of the body to secure a little ventilation. One of the occupants of the cabin was wearing a soft felt hat, and not the slightest rustle of air disturbed the brim.

In the second flight, on the other hand, it was only with difficulty that I could lift my head far enough out of the gunner's cockpit to look over the side at the ground. The instant my head was raised above the top line of the airplane body, so that the wind got a chance at it, my hair threatened to be torn out by the roots.—Edward P. Warner in Yale Review.

## TENN. SENATE PASSES SUFFRAGE RESOLUTION

BY A VOTE OF 24 TO 25—HOUSE  
WILL CONSIDER SAME  
ON MONDAY

(By United Press)

Nashville, Tenn., Aug. 13.—The state senate today approved the federal suffrage amendment. The vote was twenty-five to twenty-four.

The ratification resolution now goes to the house of representatives for action, expected (Tuesday), although quicker vote may be had.

If the house passes the resolution it will provide the thirty-sixth state to ratify the amendment and insure the vote by all women in the United States at the November election.

The house has adjourned until Monday so that no action is possible by the lower body before that date.

Nashville, Tenn., Aug. 13.—The committee on the constitutional amendment reported to the state senate they recommend favorable action on the suffrage amendment.

The minority report was tabled when an effort was made to adopt it.

When the suffrage resolution was brought up for passage a point of order was made by Senator McFarland. The chair overruled the point and an appeal was taken. The senate sustained the ruling of speech. The vote was twenty-seven to five. It was another victory for suffrage.

## Non Partisans Recommend Suffrage

Minneapolis, Aug. 13.—The nonpartisan league in a message to the Tennessee legislature today appealed to that body to act favorably on the national suffrage amendment in its special session.

After pointing out the nonpartisan league legislature and senate were among the first to ratify the amendment the telegram said that favorable acceptance by that body "would be applauded by three thousand members of the nonpartisan league who have a deep, sincere desire that a great democracy shall not longer withhold the many classes or groups political or civil rights granted many portions of the population."

The decision to send the telegram was the outcome of a conference of the national executive committee of the league. The telegram was signed by A. C. Townley, national chairman.

## N. C. Governor Opposes Suffrage

Raleigh, N. C., Aug. 13.—In a speech a large part of which was an argument against woman's suffrage, Governor Bickett today urged the North Carolina legislature in joint session to ratify the woman's suffrage amendment. Bickett announced that he is personally opposed to suffrage.

## Cox Is Pleased

Columbus, O., Aug. 13.—First news of the Tennessee senate's favorable action on the suffrage amendment was communicated to Governor Cox by the United Press. "I am mighty glad to hear it," was the word that came from him. He indicated he might make a formal statement later.

## ENTITLED TO HIS PENSION

Intelligent Dog Well Earned the Grat-  
itude of His Master—Action  
Saved Child's Life.

Teddy, age twenty-two, is his owner declares, the oldest dog in Ohio. He is now resting on his laurels, for he recently saved the life of one of the children of his master, Onias O. Swander, a farmer, near Toledo, Ohio.

It has been Teddy's duty and joy to accompany the Swander children to school, a mile distant, and bring them home again, daily. He has never been late on the job. On the way home from school recently, one of the little Swanders became ill suddenly and fell by the roadside. Teddy immediately started at his fastest pace for home and made such a fuss that members of the family accompanied him back along the road.

They found the child, unconscious, and extremely cold. He was hurried home and restored to health. The Swanders believe that Teddy's prompt action saved the child's life.

Mr. Swander immediately bought a dog license for his faithful dog. "I'll have no dog catcher chasing him. If anything should happen to that dog, my family would grieve as much as if he were one of them," declared Mr. Swander.

Teddy is half coyote and half Indian dog. He was bought from a band of Comanche Indians in Oklahoma 18 years ago.—Charles A. Henderson, in Our Dumb Animals.

## THE WEATHER

Forecast for next 24 hours:  
 Minnesota—Fair tonight and Saturday and in the west and north portion tonight.  
 Cooperative observer's record  
 6 p. m.:  
 Aug. 12—Maximum 70, Minimum 54. Reading in evening  
 56. Northwest wind. Cloudy.  
 Aug. 13—Minimum during the night, 40.

Don't Blame the Weather too Much  
 If you feel lazy, languid, seem dull, stupid, lack strength and ambition, do not blame it on the weather. The hot sun will not oppress you so much if the bowels are regular. Foley Cathartic Tablets banish biliousness, indigestion and constipation; cleanse the bowels, sweeten the stomach and invigorate the liver. H. P. Dunn, druggist.

Chorus Girl Worked as Housemaid.

A Parisian housekeeper who had long been without a servant succeeded the other day in engaging one who seemed very promising indeed. She entered upon her duties in the morning, and worked to her mistress' complete satisfaction. An early dinner was cooked and served excellently, but at 8:30 the new maid appeared in the drawing room with her hat on, and explained that she had to go out, as she was in the chorus at a music hall and was sure to be fined if she arrived late. Apparently she was quite prepared to continue her two jobs without regarding them as incongruous. Owing to a lack of modernity in the mistress' ideas, this interesting experiment was not continued.—From the Continental Edition of the London Mail.

Cures Wrought by "Sleep Baths."  
 Among the many wonderful cures which the war has produced is the "sleep bath."

It is to be had on the thousand-acre estate at Enham, Hampshire, where many of the disabled men are being treated. Practically every kind of bath is available there, but the big "sedative bath" has worked the most miracles.

The patients lie in hammocks, while water flows over them. The hammocks are immersed, and the water is kept about the temperature of the body. The gentle flowing motion has a most soothing effect upon the nerves. Provided the man has not been pronounced incurable, any disabled ex-soldier may apply for treatment through his local pension committee.

## ADVERTISE IN THE DISPATCH

## Unfair to Both Parties

When you ask for a standard article in its line and a substitute or imitation is forced upon you, two parties are wronged by the transaction—yourself and the maker of the article you wanted. It pays to get genuine Foley Kidney Pills for backache, rheumatic pains and other symptoms of kidney and bladder trouble. H. P. Dunn, druggist. mwf

## OLD RESIDENT NEAR DEATH

"I had not eaten food for 10 days and was slowly starving to death. Given up by five doctors, I tried a bottle of Mayr's Wonderful Remedy, which gave relief at once. I am 75 years old and would have died but for your wonderful medicine. The audience is all gone and I am gaining appetite and strength every day." It is a simple, harmless preparation that removes the curdled mucus from the intestinal tract and allows the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and druggists everywhere.

## IN TRUE COMMUNITY SPIRIT

Example of Small Town Neighborliness That is the Rule Rather Than the Exception.

This is a story from life for city workers to moralize on.

Howard Kirchgiesner is a farmer living on the outskirts of Staples, Minn. While operating some farm machinery, he crushed his hand. For any farmer to injure a hand at this season of the year is pretty serious business, especially when help is so scarce and live stock and crops must be daily attended to.

Kirchgiesner went to bed with his hand paining him and wondering how his farm would get along. It looked pretty bad for him. In the morning he was awakened by a commotion in his front yard. He looked out to find Mayor Harry Long, Rev. W. H. Johnson, Harry Manson, Sherm Tower, Jerry Lynch and half a dozen other neighbors from Staples, dressed in overalls and equipped with hoes and other implements ready to keep his farm going while he was laid up.

And from sunup until sundown there was only death for weeds and potato bugs. Then the cows were milked and turned out to pasture and the neighbors departed for their homes.

It would seem that one must turn off from the asphalt pavements to find the places where life is still run pretty much as the heart dictates, and where the question, "Am I my brother's keeper?" doesn't wait for an answer. Is it any wonder that the nation and the big city turn to the small town and the country for its caplins, when this is the spirit that rules its everyday life.—Minneapolis Journal.

## NO ADVANTAGE IN BIGNESS

Los Angeles Man Combats an Opinion That Has Been Long and Generally Held.

Of what advantage is bigness in a city, beyond a reasonable point, except to real estate subdividers? demands a writer in the Los Angeles Times. Personally, I found the Los Angeles of 1890 a more livable and lovable place than the Los Angeles of today.

Great cities are cancer spots on the map, breeding places of unrest and revolt. The trend to the cities is one of the most alarming symptoms of our national life.

Why measure a city by its size and smokestacks? Why not rather enlarge upon its beauty, and comfort, and good citizenship?

Americans worship bigness. Cities are estimated by their population, buildings by their height, men by their bank accounts, and babies by their weight. It is a sign of national youth. Children always delight in "great big" toys. In course of time—say in a thousand years or so—we shall overcome this weakness, and value quality rather than quantity.

## Small Town Opportunities.

The general conception of a progressive man is measured by the size of his bank account, but the real measure of progress is to be found in the amount of good a man does for those around him. The mere shifting of wealth from one to another is not a mark of progress, but rather an increase of privilege. Many an ordinary man has become very progressive by coming to a small town from a larger one, because he had better opportunities to develop in the smaller town; while just the opposite could develop a live wire by changing to the city. Progressive men are staying in the small towns, else there would be no growing small towns. It takes effort, and lots of it, to increase the facilities of the small town.—Pittsburgh Dispatch.

## Women Plan Park.

The women of Wellington, a Kansas town, have succeeded in a crusade they undertook a few years ago, to turn an unsightly swamp of 30 acres into a beautiful city park. It has been named "Community Park." It is laid out with artistic landscape effect, replete with trees, shrubs and flower beds. It contains a park house, surrounded with large shade trees, a neat modern stone building, containing a large reception room, dining room and kitchen, that will accommodate comfortably about 250 persons. The park house is used for entertainments, banquets and parties.—Montreal (Can.) Herald.

## Thought He Had Treasure Trove.

Harry Lee, a negro laborer, helping to pull down an old residence in Baltimore, unearthed a metal box about a foot in diameter, expectantly removed the rusty lid, and found inside a sack containing several old coins, dated in the early part of the eighteenth century, and two old flints.

GOWN IS SURE TO WIN FAVOR

This dress of finest handkerchief linen is just what is desired by the fastidious. The embroidery is in colored wools.

THIS IS THE DAY OF LACE

Ornamentation of Bygone Days Returns and Rich Pieces are Brought Into Service.

If the styles of this year do not inspire a woman to go down into her trunk and look up the lace box of other days, then she is never likely to get inspiration again and she may as well pass the lace on to someone else, suggests a fashion writer.

Haven't you moved that box of laces around from trunk to trunk and drawer to drawer until sometimes you wished that it really could go to a rummage sale?

But, of course, this summer you are pleased with yourself for having had the perseverance to save all of them in this box and, in spite of the riot of organdie, to be able to use every scrap of lace. It doesn't matter particularly what the width or whether it is black or white or even if it has been dyed. And one is not confined to any special material or to any line or set method of using it.

Not for years has one been able to draw forth black or white lace flouncing. Collars and cuffs have been about all the use offered for any kind of lace. Perhaps the fact that it is a ruffle year provides the place for lace and yet we have seen other ruffle years which had no mention of lace ruffles.

This year deep lace flouncing is used in all kinds of ways. One is fortunate to have a Chantilly flounce in either white or black and the imitations are used with exactly as pleasing effect.

All one needs with deep flouncing is a nice slip of satin, the flounce of white hung at the depth the lace will allow, and net added to make the tulle longer or shorter. A bit must be saved out (most of the old flounced gowns were wide enough to admit of that) and used in some way in the bodices.

Many women do not like the scallop at the bottom of the flounce. But in this case a hem of net can be cleverly added to the edge, filling in between the scallops and cut out under the scallops.

LOOKING FORWARD TO FALL

New Frocks in Course of Construction Should Conform to the Autumn Styles.

Any frocks that are being made up now should conform to fall style specifications, unless, of course, distinctly summer fabrics are being used. Usually the summer wardrobe is about complete by this time and anything added is inspired by a bargain sale or simply a "filler-in" for some special occasion.

Satin and tricotine are combined in innumerable frocks and for very early fall street frocks entirely of satin or of taffeta will be approved.

As one of the extremely smart style features is the street frock of serge, satin jacket, it will be quite possible for a woman to use the coat of a suit with satin skirt in developing a next season street dress. One clever dress recently seen showed a redingote coat of tan wool fabric with black satin skirt. Navy and black, however, are more frequently shown.

Beaded and Embroidered.

The new fall blouses show a large number of beaded and embroidered georgettes. They are designed on the popular overblouse lines.

Waistline to the Hip.

The waistline seems to have migrated to the hip, for the newest French dresses have a waistline which rests on the hip.

PICNIC PARTY

Given in Honor of Dr. and Mrs. G. P. Sheridan at Summer Home of W. E. Erickson

One of Wednesday's attractions was a picnic party, given in honor of Dr. and Mrs. G. P. Sheridan of Fairbault, at the summer residence of W. E. Erickson, Nisswa.

Those out of town were Mrs. A. White and Miss Maudie White, mother and sister of Dr. Faridan, recently of London, England, now visiting Mr. and Mrs. D. E. Whitney, also Mr. and Mrs. W. M. Nutting and the Misses Ada and Ruth Nutting of Fairbault.

Dr. and Mrs. Sheridan in company with the Nuttings motored to Duluth, Thursday morning, where they will spend several days in that vicinity.

Ladies Aid

The Ladies Aid of the Norwegian-Danish Lutheran church will be entertained by Mr. and Mrs. Paul Henningson out on their farm Sunday afternoon August 15th. All should meet at the church at 1:30 o'clock, and will all those having cars kindly help those who haven't any cars to get out there?

Maxim-Johnson

A quiet wedding took place in Staples Friday, August 6, at 1:30 p. m. at the home of Mr. and Mrs. J. O. Peek, when Flora Maxim of Crow Wing and Michael Johnson of Cuyuna were united in the holy bonds of matrimony. The bride was attired in a blue serge traveling suit, and carried a bouquet of asters, roses and sweet peas, and was attended by her sister, Mrs. E. L. Grimstad.

The bridegroom was attended by his brother Rangvald. After the ceremony the young couple returned to Brainerd.

Mr. and Mrs. Johnson will make their home in Brainerd where Mr. Johnson is employed in the N. P. shops.

Entertained at Tea

Mrs. A. W. Ide entertained at tea Thursday afternoon for her mother, Mrs. Millsbaugh of Little Falls.

Rudyard Kipling's Autograph.

They say that a bank check bearing the signature of Rudyard Kipling fetches a bigger price for its autograph than for the amount of money named in the check. Probably much depends on the size of the check. A distinguished poet of Boston once sent a poetic contribution to a well-known periodical. It was promptly accepted and published and in due course he received a check for \$3 for it. Instead of cashing the check he had it mounted, framed and hung up in his library for the edification and amusement of his friends. Possibly Mr. Kipling may have had similar experience to verify the current item about the autograph and cost value of checks sent to him. —Boston Globe.

Overeducated.

"It was too much education that landed me here, mum," said the burglar to the visitor at the penitentiary. "I had an assistant who was born in Boston. One night we had a good second-story job, but he queered the whole thing at the last minute." "How do you mean?" asked the visitor. "When I told him to climb up the down spout to get the swag out of the second story he said: 'I refuse to do anything so paradoxical; and just then the copper woke up and collared us.' —Pittsburgh Chronicle-Telegraph.

Acidity of the Stomach.

The commonly received belief that too acid gastric juice is the cause of ulcer of the stomach has been absolutely disproved. Dr. Frank Smithies in his address as chairman of the section on gastro-enterology, American Medical association, summed up this proof. Such ulcers have been found when the gastric juice was either absent or lacking in acidity, others have healed in the face of great hyperacidity.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine.

Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous surfaces, expelling the Poison from the Blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free.

"I See In the Paper" is the Way Many Conversations Begin. If Your Advertisement Were There It Would Be Seen Too.

From actual photograph taken in the Edison Shop, Fifth Avenue, New York City

You can make this surprising experiment in our store — The Test of the Two Violins

Violins differ subtly in tone! Test the New Edison Realism by that fact.

We have an "Ave Maria" RE-CREATION played by Albert Spalding with his Guarnerius. This famous violin has a brilliant, singing tone. We have a second "Ave Maria" RE-CREATION played by Carl Fleisch with his genuine

Stradivarius. This violin has a rich, mellow tone.

Come in and compare these two RE-CREATIONS—tone for tone. If the New Edison makes clear the distinction between the singing Guarnerius and the mellow Stradivarius, you know it has perfect realism for you.

The NEW EDISON "The Phonograph with a Soul"

Albert Spalding himself recently took part in a test of the New Edison's Realism, at New York City. He played in direct comparison with the RE-CREATION of his performance by the New Edison, Mr. Henry Hadley, one of the jury of the three distinguished musicians who listened from

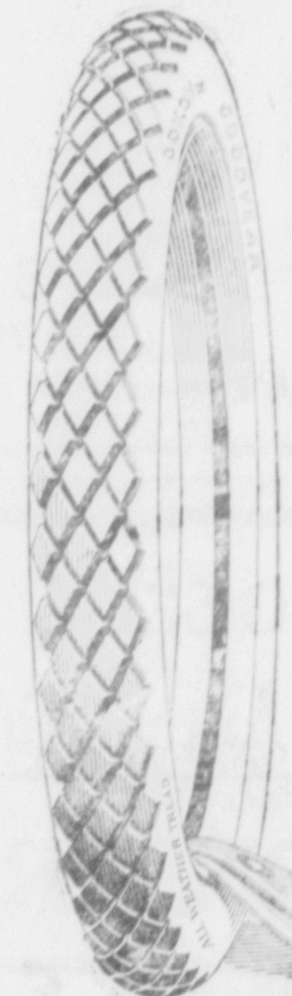

behind a screen, said: "The RE-CREATION matched Mr. Spalding's performance tone for tone." The New Edison is the only phonograph which has given this conclusive proof of its perfect realism. It has triumphed in 4,000 such comparison-tests.

PRICES! HALT!

Since 1914, the total price-increase in the New Edison has been less than 15%. Mr. Edison has, personally, absorbed more than one half of the increased costs of manufacture. He has not been able to do this much longer. Buy now—if you want today's prices. Our Budget Plan will help you. It distributes the payment over the months to come.

FOLSOM MUSIC CO.

Low-Cost Mileage—Get It in Goodyear Small Car Tires

There is no economy in buying so-called bargains in tires offered at sensationally cheap prices when a well-made tire delivers mileage at a considerably lower rate of cost.

Add the time and trouble occasioned by frequent replacements and it is fully apparent why tire users, seeking real mileage economy, are not attracted to very cheaply priced tires.

The popularity of Goodyear Tires, of the 30 x 3 1/2, 30 x 3 1/2 and 31 x 4-inch sizes, is based on the fact that they are built to deliver exceptional mileage at low cost and consistently do so.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—for true Goodyear mileage, value, economy.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3 1/2 size in waterproof bag \$4.50

PRES. WHITNEY  
MAKES STATEMENT

Recites Costs and Depreciation Charges and the Actual Losses in Operating Plant

## HOW GAS RATES ARE BASED

They Depend Absolutely Upon the Quantity of Gas That is Sold, Said Mr. Whitney

A. G. Whitney, President of the Brainerd Gas and Electric company in an interview this morning made the following statements relative to the gas situation in Brainerd.

The company has approximately 705 consumers and the gross earnings during the summer months are running about \$2,500 per month, or about \$3.50 for each meter. A number of our consumers only pay the minimum bill. The plant started August, 28 1916. The total amount charged to depreciation during the entire period to December 31, 1919, was \$13,200, and the only interest charged was on the actual indebtedness, and no interest returns have ever been charged on the rest of the capital investment. That no charges have ever been made for Mr. Whitney's services or that of his St. Cloud assistants, that for the last two years the bookkeeping department at St. Cloud has been paid \$40 per month for keeping the books and prior to that time \$30 per month. Hence no one can say but what the expenses are less than they actually should be. That the cost as shown by the books of the company for making gas for the month of January, 1920, was \$2.10 per thousand cubic feet; with a proper charge for interest and depreciation on the money actually invested the rate should have been \$3.28 to break even. For February the cost shown on the books was \$3.48, but with proper interest and depreciation charges the rates should have been \$4.40. For March the book cost was \$2.60, actual cost \$4.60; April \$3.30, actual cost \$4.10; May book cost \$3.36, actual cost \$4.15; June book cost \$3.28, actual cost \$3.98. Cutting out all charges for interest and depreciation the actual cost of making and delivering the gas to consumers in March, 1920, was \$2.50 per thousand cubic feet, for April \$2.24, for May \$2.22, and for June \$2.12. This gas was sold to Brainerd consumers at \$1.60 per thousand cubic feet.

An increase in the price of gas was granted to the company in June, 1918, of 35 cents per thousand cubic feet. The actual loss in operating the plant since August 28, 1916, as shown by the company's books up to April 30, 1920, amounts to \$42,601.70.

Mr. Whitney as the principal stockholder and the head of the company has advanced to the company sufficient money to keep it going. All of the indebtedness of the company is owned and controlled by Mr. Whitney, excepting \$10,500 and that indebtedness he intends taking up at once. Hence, strictly speaking, the company has no creditors to deal with excepting Mr. Whitney and he says he is under the circumstances willing to pocket his losses but will not advance any further sums to the company; that the cause for the immediate closing of the plant was due to the explosion of the compressor, which occurred yesterday morning at 5:20 a. m., which was believed to be due to the compressor head having been overheated on account of the lack of sufficient water to be kept properly cooled.

Mr. Whitney stated further that he came to Brainerd yesterday with the view of asking for a proper increase in rates, but on account of the shut down at the plant, he decided not to ask for an increase, and as much as the damage to the plant will amount to fully \$5,000 or more, he

had decided to make no further advances to the company, thus allowing it to close down.

In considering rates the public does not appreciate what difficulties the gas companies are laboring under at this time. As an illustration, for the City of Brainerd with 705 consumers the actual charge for interest and depreciation alone is approximately \$1.82 per thousand cu. ft., taxes 11c, and insurance 2c per thousand cu. ft. These amounts vary according to the amount of gas sold. If the company were selling double the amount of gas it must be borne in mind that this overhead charge covering these four items would only be one-half that amount. Gas rates are absolutely dependent upon the quantity of gas sold. It will also be borne in mind that today the gas company is paying practically three times as much for its coal, coke and oil as it was when the plant was started in 1916, aside from the large increase in labor cost.

Mr. Whitney stated in conclusion that it is with the deepest regret that it has become necessary for him to allow the plant to be shut down, but under present operating conditions it is absolutely useless to undertake to do otherwise. "I have not lost my faith in Brainerd and believe ultimately it will be one of the best cities in the state—its prospects are certainly good."

**Great Russian Port.**  
 The harbor of Odessa, in south Russia, is formed by several stone piers and a long breakwater and is protected in every direction. It is the only port in southern Russia where ships drawing 30 feet can come directly to the docks, and the docks are larger and better equipped than those of any other Black Sea port. The depth is 35 feet on one side and 43 to 47 feet on the other.

**Rubber-Using Insects.**  
 When Para rubber trees are tapped, after the gum has run into receptacles and stiffened a species of large black ant is accustomed to cut out pieces of the rubber and carry them away. Bees also find use for India rubber, and some species in South America actually cut the bark of trees that produce resinous substances in order to cause a flow of the sap. The gum is employed by the bees as a ready-made wax for their nests.

**Brazilla**  
**For Cheerfulness**  
 Brazilla is the "CHEER UP" drink. It makes two smiles grow where only one grew before. This is due to the Yerba Mate (pronounced severash mah-tay) blended with the delicious tropical fruits, herbs and spices in Brazilla syrup. A Government report says of Yerba Mate, "It cheers but does not inebriate." It is harmless. At all soda fountains.  
**THE BRAZILLA COMPANY**  
 Minneapolis, Minn.

## Made a Change in Her

Mrs. L. Gibson 12th & Edison St., LaJunta, Colo., writes: "My kidneys were giving me a great deal of trouble. I took Foley Kidney Pills and they made such a change in me I feel fine." Foley Kidney Pills promptly relieve backache, rheumatic pains, sore, swollen or stiff muscles and joints. H. P. Dunn druggist.

## DON'T FAIL TO SEE--

## Westinghouse Automatic Electric Range

## DEMONSTRATION

The only Automatic Range on the market today, which means cutting operation expense  $\frac{1}{3}$  less than other electric ranges. "We have many satisfied customers in Brainerd"—Ask us. See us for other Electrical appliances. In fact, "Everything Electrical."

## BRAINERD ELECTRIC CO.

714-716 Laurel St.

Brainerd, Minn.

**Jefferson's Aim.**  
 Jefferson sought to create in the university of the state an institution that would not only through traditional culture values give to the state "legislators and judges" and expound the structure of government, but would also "harmonize and promote the interests of agriculture, manufacture and commerce, and by well-formed views of political economy give free course to public industry."—Edward Kidder Graham.

**To Protect Aluminum.**  
 To protect aluminum and aluminum alloys from corrosion, says the Journal of Industrial and Engineering Chemistry, L. von Grothuss has tried browning the metal electrolytically. By using this method, the aluminum may be bent or rolled without the coating. Aluminum thus treated was immersed in a salt solution for two months without showing the slightest trace of corrosion.—Chemical Round Table.

**Keep Up to the Mark**  
 Good health is impossible when the kidneys are weak, overworked or diseased. When they fail to filter out of the blood the poisons and impurities that cause sore and swollen muscles and joints, backache, rheumatic pains, take Foley Kidney Pills to give the help they need. H. P. Dunn, druggist.

## "FREEZONE"

Lift Off Corns! No Pain!

Doesn't hurt a bit! Drop a little Freezone on an itching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

## CHIROPRACTIC + NATURE = HEALTH

It may not be proper to classify Chiropractic alone, since it is a part of Nature—a natural process of keeping fit.

There is nothing new or revolutionary to Chiropractic adjustments. They are now as they have always been, a part of the natural system which aboriginal people use to keep their bodily processes normal.

Chiropractic adjustment remove the cause of disease, which is pressure upon nerves by segments of the spine that have been misaligned from their normal position.

The Chiropractor restores the offending vertebrae to normal position in the spine, relieving the pressure, and Nature restores Health and Normality to the body.

We will be glad to tell you frankly just what Chiropractic adjustments will or will not do in your case. See us today. Consultation and Spinal Analysis Free

## AT THE COURT HOUSE MEETING

Joint Meeting Held Thursday Evening of Council, Gas Company and Consumers

Braierd today has no gas plant functioning and seems in a fair way to lose the plant, according to the statement made by President A. G. Whitney of the Braierd Gas & Electric company at the joint meeting of city council, gas company held at the court house on Thursday evening.

Every seat was taken in the district court room by men and women and as many more as could stand in room and hallway were sandwiched in to hear what action the mass meeting took.

Mayor F. E. Little presided and made a short talk. He was followed by Mr. Whitney of the gas company.

Mr. Whitney recited the losses claimed to have been sustained by the company by rising costs of coal, coke, oil, in fact everything that entered into the making and selling of gas.

Mr. Whitney gave figures on costs of gas for various months of this year, the bare cost and then the cost plus depreciation and interest charges, and both largely exceeded the rate charged in Braierd, which with discounts amounts to \$1.60. For instance, said he, gas cost the company \$2.10 a thousand in the month of January, and \$3.28 when allowing for depreciation and interest. In May cost of gas was \$3.36 and plus interest and depreciation \$4.15.

### Recites Heavy Losses

Up to April 30, as he said his books showed, the company had lost over \$42,000 in operating its Braierd plant.

"Our losses have been such that we cannot continue," said Mr. Whitney.

He said he had come to Braierd Thursday to ask for an increase to \$3 a thousand, and that rate would have to be off varying according to coal, coke, etc., prices, raising as these advanced and lowering as they decreased.

Then came the accident at the plant of Thursday morning when the compressor and other valuable machinery was wrecked. He was no engineer, but estimated the loss at \$5,000.

R. L. Spiering, a gas engineer employed by the Whitney public utilities had arrived from Crookston and examined the plant as well as he could in the evening and estimated the damage at \$8,000. Mr. Spiering, when interviewed later, said the damage to the plant included loss of all instruments to test gas pressure gauges, damage to compressor, etc.

### Close the Plant

"The only thing left to do is to close the plant," said Mr. Whitney. "We do not think you would grant us an increase large enough to continue. The company could not raise \$8,000 on our record of losses, unless I advanced it myself, and that I did not care to do under present conditions."

### Answering Questions

Mr. Whitney answered a number of questions in regard to cost of gas in other cities. Minneapolis with 93,000 consumers had \$1.14 gas. The St. Cloud old rate was \$1.55 and they were asking for an increase there.

The gas plant in Braierd had the benefit of any profits made in their store at Braierd.

The company had not made a sufficient charge for interest and depreciation in Braierd.

The city can take over the plant at an appraisal arrived at by one appraiser named by the city, one by the company and a third selected by the two.

It would give Braierd a black eye to lose its gas plant.

As to the cause of the accident it was believed that low water pressure had heated the compressor. The company is putting in an independent water supply, but had not used the same as yet. It would have been completed Saturday.

### Motion to Buy Gas Plant

A. L. Hoffman made a motion that it be the sense of the meeting that the city purchase the gas plant.

F. E. Ebner offered a substitute motion that inasmuch as the meeting had been called to consider a raise in gas rates, and failing in that, we adjourn which carried.

## Thon-Lund Nuptials

Northeast Braierd was the scene of a pretty wedding which took place last evening at the home of Mr. and Mrs. John Lund, parents of the bride, 517 Pine Street.

The contracting parties were Arthur Thon and Miss Goldie Irene Lund, both of this city. The wedding took place at exactly 8:30, the Rev. Arthur G. Smith, pastor of the First Baptist church officiating. The arrangements and decorations were complete. Miss Irma Haake sang, "O Promise Me," and "I Love You Truly," accompanied by Miss Ellen Lind who also played the wedding march.

Master Kenneth Erickson of St. Paul carried the wedding ring upon a beautiful white rose and Miss Evelyn Swanson acted as flower girl. Alger Thon cousin of the bridegroom was best man and Miss Mildred Lund, sister of the bride was bridesmaid. The bride approached the altar costumed in white silk and wearing a veil also carrying a large bouquet of white roses.

After the ceremony all participated in congratulating the bride and groom and partaking of the bounteous wedding supper served by Mrs. Ole Anderson and Mrs. Beckstrom and a number of young ladies, intimate friends of the bride. The wedding presents were beautiful and numerous.

Mr. Thon is a prosperous young merchant, a partner of the firm of Swanson and Thon, grocers, and Miss Lund is one of the most popular young ladies of the community. They left for a short trip carrying with them the good wishes of a host of friends and will be at home after Sept. 1st.

The out of town guests were Mr. and Mrs. Henry Thon parents of the groom and their son; Mr. and Mrs. Allen Lund of Minneapolis; Mr. and Mrs. Andrew Erickson of St. Paul; Mrs. A. Beckstrom, St. Paul; Mr. and Mrs. G. A. Webber, Minneapolis; Mrs. Anna Wilson and daughter, Miss Jennie Wilson, Minneapolis; and Hildur Inderhus, Minneapolis.

## CHARGED WITH MAKING MOONSHINE

Officer E. G. Boyd and Assistants Take an Italian Near Woodrow in Custody

### SEIZE 300 GALLONS OF MASH

Prisoner is Defiant, Makes a Move to Draw Two Guns, and Then Submits to Arrest

Tony Gollo, living north of Woodrow near Braierd, was arrested by Special Officer E. G. Boyd and assistants, charged with having 300 gallons of raisin mash in his possession, and his still in operation.

The officer alleged that Gollo had a regular distillery in operation out in the woods near a creek, and had the still and eight barrels of mash skillfully camouflaged with brush and willows in a ravine. The officers searched and found the location Saturday, being guided also by their sense of smell. They then lay in wait for six days and when they saw Gollo walking cautiously to his plant, they took him in custody. He turned out to be a "two-gun" man, having a revolver of large caliber on each hip. He reached for both weapons, but hesitated to draw them, as the officers had the drop on him.

Gollo is an Italian, was very defiant and when the officers asked him what he was doing, he said nonchalantly: "Making moonshine."

"Don't you know any better than that?" queried Officer Boyd.

"What would you have me do?" countered Gollo in return. "Do you want me to steal?"

Gollo had enough mash on hand, said Officer Boyd, to distill about a hundred gallons of moonshine, which he could have disposed of at about \$2,000.

He was brought to Braierd and locked up.

### Gave it to Children and Grandchildren

Mrs. V. M. Katz, 502 Armondale St., N. S., Pittsburg, Pa., writes: "I gave Foley's Honey and Tar to my little grandson when he had a bad cold and it did him lots of good. I used a lot of it when my own children were small." It must have merit to hold the leadership generation after generation. H. P. Dunn, druggist.

**Permanent Whitewash.**  
Mix six pounds of whitening with cold water, taking care to leave no lumps. It should be about the consistency of thick cream. In an old jar steep three ounces of size in cold water for 12 hours. Then make it very hot, but be careful not to let it boil. Pour it while hot into the whitewash. It is most essential that the size be fresh or the smell of it will be quite intolerable. Any coloring—green, pink, blue, or fawn—may be added.

**Great Man's Queer Fancy.**  
Daniel Webster had a curious fancy for painting the faces of his cattle. One week the poor beasts would walk around with blue faces, and the next would appear with red ones. The effect was so novel that it pleased him, and from that time forth he changed the color whenever he had a few minutes to spare, and would laugh heartily at the astonishment of his friends when they saw the queer-looking beasts.

## Sweeney Says:-

When are you going to paint that house?  
A gallon in time will save a number of repair bills.  
We carry a big line of inside and outside paints for all purposes.

## Your Chance To Ride in a Hydroplane!

Haven't you often wished you could go up in a flying machine? You are going to have a chance in a few days.

We are making a business call upon the Salisbury & Satterlee dealer in your town via a Curtiss Hydroplane. While we are calling upon him we will take up passengers who are to make arrangements for the flight with their Salisbury & Satterlee furniture dealer.

The Curtiss Hydroplane we are using is the same type of machine being used in regular aerial passenger service at Atlantic City, New Jersey, and San Diego, California. It is in daily use on both coasts and on the Great Lakes.

It will be piloted by:

K. B. Salisbury, Lieutenant (j. g.) U. S. N. R. F.

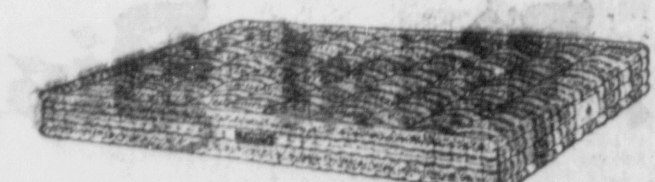

Two years instructor at Miami during the war.

This is your chance to ride in a tested hydroplane piloted by an experienced aviator. You could not have a safer, more favorable opportunity to experience the thrill of flying.

Watch for the Salisbury & Satterlee Hydroplane.

Make reservations immediately through the Salisbury & Satterlee furniture dealer.

## Home Town Helps

GOOD CITIZENS, AND OTHERS

Vital Difference Between Them, Though It May Not Always Seem to Be Recognized.

Two men went to a man who keeps a small retail store on a residence street the other day and said:

"We will paint your whole building every year if you will let us put a sign on the blank wall." And he said:

"I can't do it." So they got up to painting his store and paying \$100. And then he told them:

"This is a residence street. The people are willing to have me here because I render service. That wall of mine doesn't make the street look any worse than is necessary."

They told him other men did it; that no one noticed it; that it didn't bring him a dollar's more business, but he refused all the arguments they could think of. His answer was that he owed something to the people of his neighborhood.

There is a citizen who is an asset to his community. And it is true there is no recognition in it and probably not a dollar in trade.

There are others like this man. The man who is holding vacant lots for an increase and ekes out the taxes by renting space for disfiguring signboards is criticized, but his pocket doesn't suffer—at least he is convinced that it doesn't.

The man who refuses to do this, who keeps the grass cut and allows no accumulations of rubbish is an asset. But there is no sign to remind his neighbors that he is a decent citizen. So with the man who doesn't let his chimney smoke, who keeps his place in repair, who doesn't have the public sidewalk forever blocked.

And they aren't paid? Well, that depends on how you look at it. Some men are pretty well paid by the consciousness that they enjoy the society of a decent citizen and good neighbor when they are alone.—Milwaukee Journal.

### LEARN TO DEFEND GARDEN

Interest and Willingness Not Sufficient to Make Up for Lack of Practical Knowledge.

There is, perhaps, a love for the soil,

latent or rudimentary, in most of us, an agricultural instinct that has come down to us through the generations since the first gardener. It is a taste easily developed. Soon comes a liking for the smell of the earth upturned by the plow, an interest in watching the breaking of the plants through their covering and in noting the varied characteristics. But skill does not always equal the interest and there must be intelligence and skill if the garden is to be a success. The habits of each variety of plant, its special needs, the nature of its insect enemies and the means of circumventing them, all are learned by experience, but it is better not to wait for this, since discouragement may intervene. It is wise to take the instruction that experts can give and it was a happy thought on the part of the Gardeners' association to plan for this. Lectures on the subject should be well attended and productive of good results.—Indianapolis News.

### Great Men From Small Towns.

The little town should be away from all main lines of travel; otherwise it is apt to be small instead of little. The infrequent motorist may dub it "dead as Julius Caesar," but it likes itself that way. It picks itself on its age, resents innovations, has no use for "horns" or reformers. Its people are noted for "a sweet unreasonableness," their kindly neighborliness and a moral rigidity quite out of fashion, yet becoming. Many great men have borne witness to its charm by returning to end their days in the place where their characters ripened. After all, the little towns are the seed from which came the best of our American manhood.—Chicago Tribune.

### Human Fly Says It's Safe.

Polley, the human fly, who climbed the 37 stories of the Woolworth building in New York, says climbing tall buildings is just a trick of balance. It took him nine years to acquire it, but now that he has it he believes his way of making a living is as safe as any other. He recently told a reporter for Capper's Weekly he had never fallen, except on one occasion when a "fly" above him fell and knocked Polley to the ground. Polley doesn't smoke, drink or indulge in any habits that might injure his health. He declares he takes no foolish chances and that he never becomes dizzy.

### Broke.

"Hi, there, sir!" shouted a Florida landlady to a departing guest who was rushing for the train, "you've dropped your pocket book."

"All right," shouted back the guest without stopping. "I've no further use for it."—Boston Transcript.

## SMILE AT FATHER

Sons No Longer Believe Everything Told Them.

Tales Beginning "When I Was Your Age" Now Received With Irreverent Disbelief, According to One Somewhat Mournful Sire.

"When I was your age," I told my son when he was small, "we were not taught to swim—we were made to. My father took me to the end of the pier . . ."

He believed me, of course, just as he had, when an infant, believed the fable about the stork. In fact, I felt instinctively that he held me in higher esteem for my alleged prowess in floundering in the sea with father peering down at me off the pier to see if I should sink or swim than he did before, writes Basil Tozer in the North China Standard.

"When I was your age," I told him when he went to school, "my ambition was to snatch all the learning I could and to lift as many prizes as possible at the end of each term. I used to take Homer's 'Iliad' to bed with me so that I could read about Agamemnon when I awoke early in the morning, and I could have told you off hand exactly how many times Xenophon 'retired into winter quarters in the spring of the year B. C.' and how many stages and parasangs he marched from first to last, while as for Euclid . . ."

Again he believed me; at least, I think he did. At any rate, he had the politeness—or it may have been fear of chastisement which prompted him—not to let me suspect he fancied I might be walking round about the truth.

"When I was your age," I told him the other day, "I was not interested in horse racing, nor did I pilander with girls, nor did theaters and other places of amusement, except Exeter hall, appeal to me. No, at your age I already had my nose to the grindstone and was earning my own livelihood and—"

"Look here, father," he interrupted abruptly, "isn't it about time you washed out all this about what you did when you were my age? Try one of these"—he handed me his cigarette case—"and listen to me. When you were a small boy your mother let you learn to swim in the hot water bath because it is only three feet deep, also because she feared you might catch a chill if you bathed in cold water. When you went to school you were such a dud that you took your school

books to bed with you to swat them up in the early morning for fear of a caning. And when you were the age I am now, you were not earning anything; grandfather called you a 'lazy rascal' and said you would 'never do a stroke of work until he was dead,' and you never did. Now, isn't that the truth? Uncle told me it was."

I agree with parents who declare that "young men today are not what they used to be." When I was a young man I believed without question everything my father told me.

And I have regretted it ever since.

### He Knew Its Use.

An Indianapolis family a few years ago took a boy from an orphanage. Now, of course, everything at the new home was different from the place he had just left. Still he tried to make himself at home and help all he could.

One day the woman of the house told her grown daughter to go upstairs after a box. The orphanage youngster offered to go instead. "But you don't know where to find it," protested the woman.

"Oh, yes, I do," the little boy insisted. He had gone to her closet before after things and had seen the boxes. "They are in the little pantry that you keep your clothes in."

### Alloy Stronger Than Steel.

An Italian engineer has discovered a new alloy of zinc and copper which is stronger than steel and less corrosive than copper, says the Scientific American. The most important characteristics of the new alloy, which has been named "Black Metal," are the highest known breaking point, the highest limit of elasticity, perfect homogeneity and higher resistance to both heating and chemical action. It has been stated that it can successfully be cast, machined, rolled, forged, drawn and stamped. It is expected that it will prove an acceptable substitute for steel, brass and aluminum.

### Ground Ice.

A professional paper of the United States geological survey on the Canine river region, in northern Alaska, describes the occurrence of ground ice in that region and reviews the literature of ground ice in considerable detail. The author concludes that the two varieties of ground ice most common in northern Alaska are formed by the burial of river ice by sediments and by the growth in place of vertical ice wedges.

### Where She Might Shine.

Mrs. Tonsils—You've heard my daughter sing. Don't you think she's about ready for a public appearance? The Impresario—Certainly, madam. I thought as I listened to her what a fine movie actress she'd make.

### The Oldest Piano.

The oldest piano in existence was made by Cristofori in the year 1720, and is still in good condition. But its sound is more like that of a harp than a piano, for its wires, instead of being struck by hammers are plucked by points of quill or of hard leather.

### No Kentucky Silver Mines.

The bureau of mines states that there are no silver mines in Kentucky. There is an old legend which prevails throughout the country regarding lost silver mines in that state, but there is no foundation for it.

## EVER READ THE CLASSIFIED ADS?

Many an individual has discovered OPPORTUNITY in the classified advertising of a city newspaper. The value of these columns is incalculable when their usefulness is fully appreciated.

The Employment columns have helped untold numbers of young men and women to secure a start in life. The Merchandise section has enabled many a man to buy at a bargain and sell at a profit.

Buyers of Automobiles have been saved much weary hunting and inquiry by finding the machine they wanted in the Classified Ads. The same thing is true of the Rental department in regard to farms and horses; while the Real Estate columns offer bargains and exchanges in homes and lots to suit all classes of buyers.

If you want a Loan, you will find reputable concerns offering it to you. If you want to invest in a little business or purchase a hotel, you'll find what you want under Business Opportunities. No matter what you want to buy or exchange you will find the Classified Ads always ready to help you.

On the other hand—if you want to sell the pup, swap the piano or exchange your ukulele for a pair of ear muffs, the Classified Ads will tell the world all about it. If you have Lost or Found anything, there are special columns in which to make known these happenings.

And the best medium in the Northwest for Classified Advertising—whether you want to advertise something yourself or to see what the other fellow has to offer—is the

**St. Paul Pioneer Press**  
Morning and Sunday

and the

**St. Paul Dispatch**

## North East West South

Supposing that, beginning tomorrow, all the newspapers are discontinued. What a furore the public would make. "News! News! We must have news or we will be no better off than the ancients." "All right, suppose we give them news but cut out the advertisements."

Then we would discover that politics, the doings of society, notices of fires, accidents, deaths, scandals, sports, the activities of the police and criminals add little or nothing to the real comfort and happiness of this greatest age in the world's history.

What geni are they that have crowded the last fifty years with so much of advantage to humans? They are legion in number, but not least among them is Advertising.

Our day is the greatest time the world has seen because we have more to be happy with, better things, greater variety, greater comforts gathered together from the North, East, West and South for our choosing and selection. Look about you. This is the day of better food, better homes, better clothing, better babies, better health, better business. And advertising is the instrument that makes these better things possible.

Advertising is the NEWS of all the looms, of all the furnaces, of all the laboratories, of all the shops, of all the stores, of all the world and all working for you.

Because of advertising, luxuries and necessities that once cost a king's ransom are yours at little prices. Advertising pits merchant against merchant, artisan against artisan, producer against producer, for your benefit, forcing out the best there is in everything and telling the world about it.

Read advertising. Keep abreast of today. Advertising furnishes you with facts and opportunities that you would otherwise never know.
